The Honorable Members of County Council and the Citizens of Jasper County, South Carolina

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted accounting standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Jasper County for the fiscal year ended June 30, 2006.

This report consists of management's representations concerning the finances of the county. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations management of the county has established a comprehensive internal control framework, that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, Jasper County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Baird & Company, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2006 are free of material misstatement. The independent audit involves examining on a test basis, evidence supporting the amounts and disclosures in the financial statement presentation; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended June 30, 2006 are fairly presented in conformity with GAAP. The independent auditors report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Jasper County's MD&A can be found immediately following the report of the independent auditors.

This year's report is formatted to comply with the new financial reporting model developed by the Governmental Accounting Standards Board (GASB) Statement 34. This is the fourth year of preparing the financial statements using this format. It is intended to improve financial reporting by adding significant additional information not previously available in local government financial statements.

PHONE: (843) 726-7758

FAX: (843) 726-7637

In addition to the fund-by-fund financial information currently presented in the County's financial statements, we are now including government-wide financial statements. The government-wide financial statements include a statement of net assets that provides the total net equity of the County including infrastructure and the statement of activities that shows the cost of providing government services. These statements have been prepared using the full accrual basis of accounting versus the modified accrual method used in the fund financial statements. A reconciliation report is provided as a key to understanding the changes between the two reporting methods. In addition, the new reporting model includes an emphasis on the County's major funds as shown in the governmental fund statements. These new statements combined with other information are further analyzed in a new narrative section called management's discussion and analysis (MD&A). The MD&A provides "financial highlights and interprets the financial reports by analyzing trends and by explaining changes, fluctuations and variances in the financial data." In addition, the MD&A is intended to disclose any known significant events or decisions that affect the financial condition of the County.

Profile of the Government

The County founded in 1912 is located in the Southeastern part of South Carolina, just north of Savannah, Georgia. The County currently occupies a land area of 662 square miles and serves a population of 21,193. The County is empowered to levy a property tax on both real and personal properties located within its boundaries.

The County operates under the council administrator form of government. Policy-making and legislative authority are vested in a governing council consisting of five members. The governing council is responsible, among other things for passing ordinances, adopting the budget, appointing committees, and hiring both the government's administrator and attorney. The government's administrator is responsible for carrying out policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of various departments. The Council members serve four-year staggered terms, with three council members elected every two years. Four of the council members are elected to single member districts and one member is elected at large.

The County provides a full range of services including: police and fire protection, the maintenance of highways, streets, and other infrastructure, recreational activities, and cultural events, sanitation services, emergency medical services, E-911 and courts service. The County underwent a salary and staffing study that redefined the functional areas of certain department heads. These recommendations were adopted by the County to allow for greater accountability. The financial statements were reorganized to comply with these changes. As a result information prior to fiscal year 2002 was not available for the statistical section.

The annual budget serves as the foundation for the County's financial planning and control. All departments of Jasper County are required to submit requests for appropriations to the administrator on or before the last day in March each year. The County administrator uses these requests as the starting point for developing a proposed budget. The County administrator then presents this proposed budget to the council for review prior to May 15th. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30th, the close of the County's fiscal year. The appropriated budget is prepared by fund and department. Budgetary control (that is the level at which expenditures cannot legally exceed the appropriated amount) is maintained by the administrator at the fund level and may be amended as necessary during the fiscal year. Budget-to-actual comparisons are provided in the report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on pages 43-45 as part of the required supplementary information for governmental funds.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the boarder perspective of the specific environment within which the County operates.

Local Economy

The County's fiscal year 2007 assessable base is \$93,466,825, up 37% from the assessable base of \$68,248,264 in fiscal year 2006. The County's average weekly wage increased 12% over the last year and is currently \$531.00. This weekly wage increase was three times that of that the state's overall weekly wage increase and Jasper County saw a larger percentage increase than its neighboring counties of Beaufort, Colleton, and Hampton. Jasper's unemployment rate continues to be lower than those of two of three neighboring counties and the state average.

In calendar year 2005, Jasper County realized a 26% increase in job growth from the previous year. Approximately 151 new jobs were created in the County in calendar year 2005.

The U.S. Census Bureau's 2005 population estimate for Jasper County's is 21,398. The 2000 census places Jasper County as the fourth fastest growing county in the state and several other publications list Jasper County as one of the fastest growing counties in the country. The County also has the distinction of currently having the highest county Hispanic/Latino growth rate in the state. A recent study completed by Clemson University's Strom Thurmond Institute projected that Jasper County would grow in population to 177,000 residents by 2026.

Jasper County is the gateway to the Hilton Head Island and the Beaufort County tourism market because of interstate 95 that runs north and south through the middle of the County for a distance of 36 miles with seven interchanges. Two primary corridors, US 278 running east/west and SC 170 running north/south, accommodate a majority of the tourist traffic in both Jasper and Beaufort Counties. Most of Jasper County's large-scale residential and commercial growth is occurring along these corridors. Jasper County and Beaufort County have been in the process of jointly planning for this growth. The two counties recently adopted the SC 170/US 278 Corridor Access Management Plan. The plan defines access management standards, future signal locations and integration requirements, and median requirements for the two corridors to accommodate development in the area.

Residential growth is evidenced by increased individual home construction combined with the approval of many large residential, mixed-use development projects. Approximately 30,000 acres of large tract, mixed-use development projects have either been approved or are in the approval process. Most are located in the southern portion of the County, but two are currently located in the northern portion of the County. To date, approximately 60,000 new, yet to be constructed dwelling units have been authorized by Jasper County, the City of Hardeeville, and the Town of Ridgeland.

In the central area of the County, development is also occurring in and around the Town of Ridgeland. These developments include: Ridgeland Lakes (148 homes), Northridge (140 homes) and Oak Commons (200 homes), The Grove (61 Homes), Creedmore (105 homes) Bees Creek Subdivision (140 homes), Wellington (500 homes), Grahamville Farms (60), Graham Hall (100 homes), Sisters Ferry Road (110 homes), Sheffield (160 homes), Great Swamp Community (260 homes), Heron Crossing Apartment Complex (60 units), Moltrey (1,200 homes), Augusta Heights (20 homes). The County is also currently tracking well over 5,000,000 square feet of commercial projects to support the residential development.

Light industrial, commercial, and construction related businesses continue to locate and expand in Jasper County to support the new residential growth. Privately owned business parks - New River Business Park off of US 278 and New River Business Park off of SC 170 continue to expand. New River has added eight additional commercial facilities valued at \$15 million and River Walk has reached virtual build-out. The County continues to entertain interest in its government owned Cypress Ridge Business/Industrial Park in the central portion of the County, the Town of Ridgeland recently attracted a new \$6.9 million panelized home construction manufacturing facility anticipated to create 52 new jobs, and the City of Hardeeville recently acquired a 135 acre site for a new industrial park in the southern portion of the County.

The University of South Carolina (USCB) has completed \$28 million initial construction of a four-year university campus that is located in Jasper and Beaufort counties along US 278. The Technical College of the Lowcountry (TCL) is currently constructing a "New River Campus" along US 278 as well. This campus will also be located in both Jasper and Beaufort counties. Phase I construction includes a \$10 million 31,000 square foot Education Center Building.

An auto mall facility has been constructed in this area. Jaguar, Nissan, Dodge, Jeep/Chrysler, Hyundai, Infiniti, Mazda, and Porsche dealerships have been constructed there. Currently, a Ford/Lincoln/Mercury dealership, purported to be the largest of its kind in the nation, is being constructed in the area as well.

Jasper County has contracted with SSA Marine, America's foremost terminal company and a global industry leader, to design, build and operate a \$450 million Jasper County owned marine terminal on the Savannah River. The new terminal will have a tremendous impact on the local economy and substantial, direct financial benefit to Jasper County. The marine terminal will produce 450 direct jobs and an estimated 97,566 new jobs in the region.

Additionally, the County continues to pursue the feasibility of developing a major aviation airport in Jasper County. Site selection is pending.

Long-Term Financial Planning

Jasper County has spent much time and effort in the past two years trying to understand and manage the growth it is experiencing. One of the County's primary concerns is that the necessary planning and growth management tools are implemented to assure that the cost of providing county services does not exceed the revenues received from the new growth. To that end, the County has developed a growth strategy that has encouraged a vast majority of all of the residential and commercial development to take place within the corporate boundaries of either the City of Hardeeville or the Town of Ridgeland.

The County also hired Clemson University to study the fiscal implications of the County's growth strategy on Jasper County, the City of Hardeeville, and the Town of Ridgeland. The resulting fiscal impact model used in Clemson University's January 2006 Fiscal Impact Assessment estimates that additional revenue from the growth will cover the growth-related capital and operating expenditures of Jasper County under every scenario analyzed.

With most of the planned residential and commercial development, Jasper County and the municipalities of Hardeeville and Ridgeland have been involved in jointly negotiating developer agreements with developer fees that offset the cost of providing additional government services beyond property tax revenue generated from the development. Fees are received to assist the entities with providing services such as schools, libraries, police, fire, parks & recreation services.

Jasper County and the Jasper County School Board are also working together to identify capital needs to accommodate future growth. The County has issued a request for proposals to acquire professional assistance in conducting a facilities assessment and space utilization study of all County properties as well as all properties owned by the Jasper County School Board. The scope of the work

to be completed also includes receiving professional advice on the siting of future government facilities and new schools within the County. The County hopes to complete this project in fiscal year 2007.

The County is currently designing a new County annex building to be constructed behind the existing County courthouse in Ridgeland. Construction of the County annex building and renovation of the existing courthouse is estimated to cost \$10 million.

The County is also in the process of issuing revenue bonds to assist the School District of Jasper County in paying additional costs associated with constructing two new K-12 schools. The bond issuance is estimated to be \$10-\$12 million to be payable from a portion of a fee agreement between SCE&G and Jasper County allocated to the school district.

Cash Management

Cash is maintained in a pooled cash account that is swept daily by the bank. Funds are invested in repurchase agreements and the interest allocated to funds based on average balances. Cash temporarily idle during the year was invested in certificates of deposit. The average yield on investments was approximately three percent.

Risk Management

The County covers risks for property, automobiles, and general liability by purchasing insurance through the South Carolina Insurance Reserve Fund. The County has no other liability other than paying the premiums. The County participates in the state self-insurance fund for workers compensation. Under this plan, the County is responsible for a pro-rata share of any deficits in the fund in addition to paying its quarterly premium.

Pension and Other Postemployment Benefits.

All employees of the County participate in one of two defined pension plans, administered by the State of South Carolina. The South Carolina Retirement System (SCRS) and the Police Officer's Retirement System (PORS), both of which are cost sharing multiple-employer public employee retirement plans. The SCRS and PORS offer retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits and survivor benefits. The plans' provisions are established under Title 9 of the SC Code of Laws. Both employees and the County are required to contribute to the SCRS and PORS at rates established under the authority of Title 9 of the Code of Laws. The County's contributions are actuarially determined, but are communicated to and paid by the County as a percentage of the employee's annual earnings.

The County also provides postretirement health benefits for retirees and their dependents that meet certain service requirements. As of the end of the current fiscal year, there were 27 retired employees receiving these benefits, which are financed on a pay-as-you-go basis. GAAP do not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

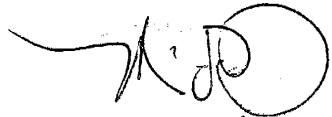

Awards and Acknowledgments

The Government Financial Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement in Financial Reporting to Jasper County, South Carolina for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2005. This was the ninth consecutive year that Jasper County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

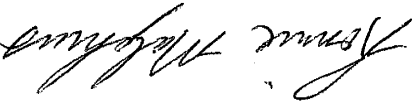

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to certificate of achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the comprehensive annual financial report was made possible by the cooperation of the department heads and staff of the County. Each of these individuals has our sincere appreciation for the contributions made in the preparation of this report.

Sincerely,

Andrew P. Fulghum
County Administrator

INDEPENDENT AUDITORS' REPORT

To the County Council
Jasper County, South Carolina
Ridgeland, South Carolina

We have audited the accompanying financial statements of the governmental activities, each major fund and aggregate remaining fund information of Jasper County, South Carolina, as of and for the year ended June 30, 2006, which collectively comprise Jasper County's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of Jasper County, South Carolina's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the financial position of the government activities, each major fund and the aggregate remaining fund information of Jasper County, South Carolina, as of June 30, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 27, 2006, on our consideration of Jasper County, South Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Jasper County, South Carolina's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, combining statement of fiduciary assets and liabilities, and statistical tables are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the combining statement of fiduciary assets and liabilities have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in the relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

BASIC FINANCIAL STATEMENTS

Jasper County, South Carolina **Management's Discussion and Analysis**

As management of Jasper County (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 to 5 of this report.

Financial Highlights

- The assets of the County exceed its liabilities at the close of the most recent fiscal year by \$30,045,042 (net assets). Of this amount, \$10,011,585 (unrestricted net assets) may be used to meet the County's ongoing obligations to citizen's and creditors.
- The County's total net assets increased by \$3,627,004. The majority of this increase is attributable to increase in property taxes and fee in lieu agreement with SCANA.
- As of the close of the current fiscal year the County's governmental funds reported combined ending fund balance of \$12,688,005, an increase of \$3,592,556. This increase is mostly attributable to the fee in lieu agreement with SCANA. Approximately 84 percent of this total amount, \$10,580,585 is available for spending in accordance with the County's budget and the funds purpose (unreserved fund balance).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$7,172,865 or 40 percent of the total fund expenditures.
- The County had \$4,703,549 in notes and leases outstanding versus \$3,462,854 last year, an increase of 36 percent.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components" 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Jasper County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the county's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in the net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the County include general government, finance, public works, sanitation, emergency services, codes and law enforcement, courts, economic development, health, education and welfare, and parks, recreation and tourism. The County currently has no business type activities.

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County like other state and local governments uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into these two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governments for which similar information is presented for the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, economic development fund and the capital projects fund that are considered to be major funds. Data from the other seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 22-25 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. All of the fiduciary funds are agency funds – assets equal liabilities. The basic fiduciary fund financial statement can be found on page 26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-42 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budget.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 46-48 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Jasper County assets exceeded liabilities by \$30,045,042 at the close of the most recent fiscal year. The following table reflects the condensed governmental-wide statement of net assets.

Total Net Assets	<u>\$ 30,045,042</u>	<u>\$ 26,390,332</u>

By far the largest portion of the County's net assets \$18,033,457 (60 percent) reflects its investment in capital assets (e.g. land, construction in progress, building and improvements, machinery and equipment, vehicles, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets (6.7 percent) represents resources that are subject to external restrictions on how they may be used.

The remaining balance of unrestricted net assets (33.3 percent) may be used to meet the County's ongoing obligations to citizen's and creditors.

At the end of the current fiscal year, Jasper County is able to report positive balances in all three categories of net assets.

- Property taxes increased by \$3,547,596 (35 percent) during the year. This increase is due to the fee in lieu agreement with SCANA.
- The income of \$3,627,004 can be largely attributed to the positive variance in revenues and expenditures.

Governmental activities. The County's total net assets increased by \$3,627,004 in 2006 compared to an increase of \$1,143,377 in 2005. Key elements of this increase are as shown in the following table.

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

For the most part, increase in expenses closely paralleled inflation and growth in the demand for services.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Jasper County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the county's governmental funds reported combined ending fund balances of \$12,688,005, an increase of \$3,592,556 in comparison with the prior year. This increase is mostly attributable to the increase in the fee in lieu of taxes. Approximately 84 percent of this total amount constitutes unreserved fund balance that is available for spending in accordance with the County budget and the funds purpose. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it represents noncurrent assets of \$2,107,420.

The general fund is the chief operating fund of Jasper County. At the end of the current fiscal year, the unreserved fund balance of the general fund was \$7,172,865. As a measure of the general fund's liquidity, it may be useful to compare the unreserved fund balance to total fund expenditures. Unreserved fund balance represents 40 percent of total general fund expenditures.

The fund balance of the County's general fund increased by \$2,586,050 during the current fiscal year. Key factors of this increase are as follows:

- Expenditures were \$1,089,454 less than the approved budget.
- Revenues were \$1,586,938 over the budgeted amount.

The economic development fund has a total fund balance of \$3,049,132. The net increase in fund balance during the current year of \$305,262 was due to the following factors:

- RDA expenditures of \$576,160 were capitalized as property held for resale.
- Planning expenditures of \$241,000 was spent from prior year revenues.

The capital projects fund has a total fund balance of \$1,702,205 of which \$7,059 is designated for the purchase of property. The increase of \$583,548 is largely attributable to the issuance of debt that was unspent.

General Fund Budgetary Highlights

During the budget year, the County Administrator can exercise his authority to transfer budgets up to \$5,000 between departments as long as the total budget of the County remains intact. County Council has the authority to amend the budget as required. Differences between the original budget and the final amended budget in the fiscal year ending June 30, 2006, can be briefly summarized as follows:

SUPPLEMENTAL APPROPRIATIONS

Purchase of property and architectural fees	\$ 187,300
Emergency services salaries and overtime	240,000
Agency appropriations	29,959
Gas, oil and grease budget adjustments	69,000
Interest on bond anticipation note	19,000
911 Addressing consultant	40,000
Utilities for the detention center	65,000
Total Supplemental Appropriations	<u>\$ 650,259</u>

Capital Assets and Debt Administration

Capital Assets. The County's investment in capital assets for its governmental type activities as of June 30, 2006 amounts to \$21,176,400 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, vehicles, and infrastructure. The total increases in the County's investment in capital assets for the current fiscal year was 8 percent.

Major capital asset events during the current year include the following:

Courthouse annex property and architectural plans	\$ 412,838
Vehicles	704,941
County-wide software implementation	419,600
Equipment	421,515
Donated voting machines	265,043

**JASPER COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Jasper County, South Carolina (the "County") is a political subdivision of the State of South Carolina, operating under the Council-Administrator form of government to provide services authorized by its charter. It is governed by an elected Board (the "Council"), which is governed by state statutes and regulations. In addition to the members of the Council, there are two elected Constitutional Officers: Treasurer and Auditor.

The accompanying financial statements present the combined financial positions and combined results of operations of the various fund types controlled by the Council and its Constitutional Officers.

The Council funds all of the operating budgets of the County's Constitutional Officers. The Constitutional Officers, revenues and expenditures are included in the General Fund. The accounting policies of the County conform to generally accepted accounting principles, as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard – setting body for establishing governmental accounting and financial reporting.

Generally accepted accounting principles, as established by the Governmental Accounting Standards Board, require that the financial reporting entity's financial statements include the financial operation of the primary government organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The basic criteria for including organizations as component units within the reporting entity include imposition of will, and financial benefit or burden on a primary government and selection of governing authority. Based on the above reporting criteria, there are no other organizations that must be included in the reporting entity.

Government-Wide-and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information about the reporting government as a whole, except for its fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Jasper County reports only governmental activities, as there are no business type activities or component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, certain intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The *economic development fund* accounts for the resources accumulated and payments made for economic development of the County.

The *capital projects fund* accounts for the resources accumulated and payments made for specific major capital projects.

Additionally, the government reports the following fund types:

The *agency fund* is used to account for resources held by the County in a trustee capacity for the Jasper County schools and for amounts held by other departments for others.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first then unrestricted resources, as they are needed.

Assets, Liabilities, and Net Assets or Equity

Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The County is authorized by state statute to invest in the following:

Obligations of the United States, its agencies and instrumentalities;

Obligations of the State of South Carolina or any of its political subdivisions;

Savings and Loan Associations to the extent that the same are insured by an agency of the federal government;

Certificates of deposit and repurchase agreements provided the collateral is of the types described in 1 and 2 above and has a market value in excess of the certificate of deposit or repurchase agreement plus accrued interest, and is held by a third party as escrow agent or custodian;

Repurchase agreements when collateralized by securities of the type described in 1 and 2 above and held by a third party as escrow agent or custodian, of a market value not less than the amount of the repurchase agreement so collateralized, including interest;

No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond debt issue of the County if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items 1, 2, and 5 above and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, values its assets by the amortized cost method.

A single central depository holds most operating cash. Each fund owns a pro-rata interest in the cash held by the depository. Interest income is allocated to the creditor funds based on average cash balances. Investments are stated at fair value.

Receivable and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" or "uncollectibles."

All emergency medical service and property taxes receivables are shown net of an allowance for

The County Ordinance provides for the taxation of all real and personal property located within the County limits on the first day of January. Motor vehicle taxes are billed and collected by the County Treasurer on a monthly basis. Other personal and real property taxes are levied by the County in October of each year and become due and payable immediately upon receipt by the taxpayer. Real property taxes are delinquent after January 15th with penalties assessed of 3% if paid after January 15th, 10% if paid after January 31st, and 15% if paid after March 15th. Assessed property is subject to lien one year from the levy date if taxes remain unpaid. The property tax rate approved by ordinance for calendar year 2005 is 155 mills.

Inventories and Prepaid Items

Inventories of the general fund consist of supplies held for consumption and are immaterial to the financial statements and accordingly are not recorded.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property and equipment and infrastructure assets (e.g. roads, lighting, and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the government as property and equipment with an initial, individual cost of more than \$5,000 and infrastructure assets with an initial, individual cost of more than \$100,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50 years
Infrastructure	20 to 50 years
Vehicles and Equipment	5 to 20 years

Compensated Absences

Unused vacation leave liabilities are reported in the applicable governmental type activities columns in the government-wide financial statements. The County enacted a new policy regarding compensated vacation days in 1993. At that time, all unused vacation hours were "banked." Each employee is to receive appropriate vacation hours based on tenure at the beginning of the year. The only hours the employees will be allowed to carry over each calendar year are the "banked" hours until they are used up. No accumulation of paid days off will be allowed in the future. The County has no financial liability for its unused sick leave. Compensated absences are paid from the general fund. The accrued compensated absences at June 30, 2006 are \$400,423 and include 15% for employee benefits and are included in long-term liabilities.

	<u>06/30/05</u>	<u>Increases</u>	<u>Decreases</u>	<u>06/30/06</u>
Compensated Absences	\$ 224,122	\$ 418,680	\$ 242,379	\$ 400,423

The fund financial statements, governmental funds are presented using the current financial resources measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets, therefore, compensated absences are not included in the fund financial statements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Government-wide and fund financial statements must be presented using an all-inclusive format. That is, the results of the current period's activities are to be reported as an addition to (or a deduction from) equity at the beginning of the period to arrive at the closing equity balance. Thus changes in net assets on the government-wide statement of activities is added to (or deducted from) net assets – beginning of the fiscal year to arrive at net assets – end of the fiscal year.

Net assets are defined as the difference between assets and liabilities in the government-wide statement of net assets.

The government-wide statement of net assets reports all government assets; therefore, a significant portion of the net assets reported there typically reflects a government's investment in capital assets. To draw financial statement users' attention to this important information, GAAP requires the amount of net assets invested in capital assets to be reported as a separate category of net assets. Net assets invested in capital assets, net of related debt includes all capital assets less accumulated depreciation and outstanding principal of related debt.

JASPER COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Assets, Liabilities, and Net Assets or Equity - Continued

Fund Equity - Continued

Restrictions may be imposed on a portion of a government's net assets by parties outside the government (such as creditors, grantors, contributors). In some cases, such restricted assets are directly associated with particular liabilities (for instance, restricted assets associated with revenue bonds). An amount equal to these restricted assets, less any related liabilities, is reported as restricted net assets.

GAAP direct that the difference between total net assets and the two categories discussed above (invested in capital assets, net of related debt and restricted net assets) be reported as unrestricted net assets.

Comparative Data/Reclassifications

Comparative total data for the prior year has not been presented. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

Expenses/Expenditures

Consistent with the current financial resources measurement focus, the governmental fund statement of activities report expenditures rather than expenses. Expenditures in the fund financial statements are presented by character for the governmental funds. The character of an expenditure is based upon the periods it is presumed to benefit. Expenditures that primarily benefit the present period (current expenditures) are distinguished from those presumed to benefit both the present and future periods (debt service expenditures and capital outlay expenditures). GAAP also provides for a fourth character classification, intergovernmental expenditures, for situations where one governmental entity provides resources to another.

Government-wide expenses are reported by function. The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. As a result, there are important differences between the expenditures reported on the governmental fund financial statements and those expenses reported on the government-wide financial statements. For example, the governmental funds report capital outlay expenditures, while the government-wide financial statements report depreciation.

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

In accordance with the State of South Carolina General Statute, the County prepares an annual balanced budget ordinance. The basis of budgeting is the same as generally accepted accounting principles. The County adopts annual budgets for the general fund using the modified accrual basis. An annual budget for the special revenue fund is not adopted as sufficient budgetary control is achieved through restrictions included in the various grant agreements. An annual operating budget for the capital projects fund is not adopted as its revenues and expenditures are adopted on a project basis. Appropriations lapse at the end of the budget year.

In March, the budget process begins with a special comprehensive work session in which the finance department and administrator meet with all department heads to discuss current and future trends, needs and goals of the County. All department heads submit comprehensive lists of programs, projects, and initiatives to be considered in the upcoming budget and meet with finance department staff and the administrator individually. During May and June, formal budget workshops are held. The Council holds public hearings and a final budget must be prepared and adopted no later than June 30.

Budgets are prepared at the fund, function and department level. Budgets are adopted at the fund level and are amended as necessary during the fiscal year in one of two ways. First, the administrator delegated by County Council, may make line item transfers within individual fund budgets with subsequent monthly notice to County Council. Such transfers can neither increase nor decrease the overall budget at the fund level. Secondly, the budget may be increased or decreased at the fund level as changing circumstances dictate, subject to County Council approval. During the year, the County Council adopted supplemental appropriations of \$650,259.

NOTE 3 DEPOSITS AND INVESTMENTS

As of June 30, 2006, the County had the following cash and investments that are included in cash governmental funds of \$10,219,508 and the agency fund cash of \$20,006,605.

NOTE 3 DEPOSITS AND INVESTMENTS - CONTINUED

Credit Risk – The County does not have an investment policy but follows state guidelines for investments. The only investment the County has is the repurchase agreement invested in government securities.

Interest Rate Risk – The County does not have an investment policy. Maturities on repurchase agreements are from 1 to 5 days. Maturities on certificate of deposits are 12 months or less.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. As of June 30, 2006, \$29,686,375 of the County's bank balance was exposed to custodial credit risk as follows:

Uninsured and collateral held by third party
bank trust department not in the County's name
\$ 29,686,375

NOTE 4 RECEIVABLES

Receivables at June 30, 2006, including the applicable allowances for uncollectible accounts, are as follows for the fund and government-wide financial statements, respectively.

NOTE 6 INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund balances arise from deficits in the pooled cash account. The composition of interfund balances as of June 30, 2006 is as follows:

Interfund Receivables/Payables

Fund	Interfund Receivables	Interfund Payable
General Fund	\$ 245,330	\$ -
Nonmajor Governmental Funds	-	245,330
Total Due to/from Other Funds	\$ 245,330	\$ 245,330

		Development	\$ 58,000
		Economic	-
		Capital Projects	-
		Nonmajor Governmental	-
		Total	\$ 325,000
			\$ 574,706

The transfer from the general fund to the nonmajor fund was a transfer of accommodations tax receipts restricted by state law of \$125,072. The transfer from the general fund of \$124,634 was to cover expenses of Sgt. Jasper Park. The transfer from the nonmajor fund to the general fund was to reimburse expenses paid by the general fund for E-911, victims of crime and to make the payment on a note.

Interfund balances must generally be eliminated in the government-wide financial statements, except for the net residual amounts due between governmental activities. Amounts involving fiduciary funds should be reported as external transactions. Any allocations must reduce the expense of the function from which the expenses are being allocated, so that expenses are reported only once – in the function in which they are allocated. No amounts were reported in the government-wide financial statements, as the amount did not involve the transfers of financial resources.

The South Carolina Retirement System offers retirements and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits, and survivor benefits. The plan's provisions are established under title 9 of the South Carolina Code of Laws. A Comprehensive Annual Financial Report containing financial statements and required supplementary information for South Carolina Retirement System is issued and publicly available by writing the South Carolina Retirement System, Post Office Box 11970, Columbia, South Carolina 29211-1970.

NOTES TO FINANCIAL STATEMENTS

NOTE 10 EMPLOYEE BENEFIT PLANS

401(k) Plan

Jasper County currently offers substantially all full-time employees the option of participating in a 401(k) plan. The South Carolina Retirement System administers the plan. Under the terms of the plan employees may contribute a minimum of two percent and a maximum of twenty percent of adjusted gross income subject to the limits of Section 401(k) of the Internal Revenue Code. It is the opinion of the County's legal counsel that the government has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. Therefore, the assets and liabilities of the 401(k) plan are not reflected in the County's financial statements.

NOTE 11 POST-RETIREMENT BENEFITS

For retirees with a minimum of ten years of service, the County will pay the cost of health insurance/Medicare supplement. The retiree is required to pay a small portion in addition to the coverage of spouses. Surviving spouses are entitled to one year of free coverage. Currently, the County has 27 retirees and surviving spouses on the plan. The cost to the County is approximately \$180,000 per year and is included in the medical insurance expenditures.

NOTE 12 LANDFILL

The County-owned landfill has not accepted solid waste for many years and has no liability for post closure costs. All amounts included in these statements for landfill cost are related to costs of disposing of solid waste at an independent landfill.

NOTE 13 SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The County has several lawsuits against it. Most of this litigation is covered by insurance or settled through subsequent agreements.

The County is a member of the South Carolina Counties Workers' Compensation Trust which is a group that provides workers' compensation self-insurance. Under the terms of the agreement, the members of the trust must pay all of the costs pertaining to claims and administration. Amounts are reflected in workers compensation expenditures.

Pursuant to section 4-29-140 of the South Carolina Code of Laws, the County entered into an agreement with a developer whereby the County issued a \$7,000,000 bond in 2001 and a \$6,000,000 bond in 2003 to further economic development within the county. The bonds are to be paid by the county treasurer paying the bondholders 40 percent of the fee-in-lieu tax received from the businesses in the park. The County has no financial liability beyond this amount. At June 30, 2006, \$6,800,000 and \$5,900,000 were outstanding.

The County, at the request of the Jasper County School District, issued special source revenue bonds in the amount of \$11,155,000 to help with the construction of Jasper County Schools. The bonds are to be repaid with the school portion of a fee-in-lieu tax. The County has no liability for repayment of the debt.

**JASPER COUNTY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006**

NOTE 13 SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES CONTINUED

The County has committed to purchase four (4) new fire trucks for \$691,952 and entered into an agreement with the City of Hardeeville to purchase a fire truck for \$650,000 in which the County will make the first 5 payments on a 10 year loan.

NOTE 14 RISK MANGAMENT

The County is exposed to various types of risk of loss and maintains elements of both self-insurance and purchased insurance policies divided into coverage of worker's compensation, property and casualty, and employee health insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. The insurers promise to pay to or on behalf of the insured for covered economic losses sustained during the policy period in accordance with insurance policy and benefit program limits.

The State of South Carolina itself assumes substantially all risks for the following:

Claims of covered public employees for health and dental insurance benefits (Office of Insurance Services),

Claims of covered public employees for long-term disability and group-life insurance benefits (Retirement System), and

Property and casualty insurance on buildings, equipment, and vehicles owned by the County as well as tort liability on County employees (South Carolina Insurance Reserve Fund).

The County participates in the South Carolina Municipal Association Workers' Compensation Pool, a public entity risk pool for its Workers Compensation coverage. Pool members are subject to a supplemental assessment in the event of deficiencies.

The County has recorded insurance premium expenditures in the applicable functional expenditure categories of the general fund. These expenditures do not include estimated claim losses and estimable premium adjustments.

In management's opinion, supplemental premium assessments, if any, would not be significant enough to have a material adverse effect on the financial position of the County.

There have not been any reductions in insurance coverage from the prior year.

The amount of settlements have not exceeded coverage in each of the past three fiscal years.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Council
Jasper County, South Carolina
Ridgeland, South Carolina

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jasper County, South Carolina, as of and for the year ended June 30, 2006, which collectively comprise Jasper County's basic financial statements and have issued our report thereon dated December 27, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of The United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Jasper County, South Carolina's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control over financial reporting that, in our judgment, could adversely affect Jasper County, South Carolina's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 2006-01, 2006-02, and 2006-3.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not

necessarily disclose all matters in internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and questioned costs as items 2006-04.

This report is intended solely for the information and use of the County Council, management, others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

JASPER COUNTY, SOUTH CAROLINA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2006

I. Summary of Auditors' Results

- A. An unqualified opinion was issued on the financial statements of Jasper County, South Carolina.
- B. We noted three reportable conditions in internal control over financial reporting, none of which are considered material weaknesses. Those reportable conditions are listed below as 2006-01, 2006-02, and 2006-03.
- C. We noted one instance of noncompliance with laws, regulations, and provisions of contracts and grant agreements during our audit. That occurrence is listed below as 2006-04.

II. Findings Related to the audit of the Financial Statements of Jasper County, South Carolina

Finding 2006-01: This is a repeat of the condition 05-01 from the prior year for the clerk of court's office:

Condition and criteria: The subsidiary ledger of trust fund balances does not reconcile to the balance in the trust account. Restitution, bonds, and fines dating as far back as 1988 have not been disbursed from the trust account.

Effects: Without an accurate subsidiary ledger of trust balances due, proper accountability for trust balance cannot be maintained. This condition lends itself to errors and omissions. The untimely payment of restitution, bonds, etc. could result in a fine to the county.

Auditor's Recommendation: Management should establish policies and procedures to reconcile the balance in the trust account to the subsidiary ledger, and management should establish policies and procedures to disburse restitution, bonds, etc. in a timely manner.

Finding 2006-02: Lack of segregation of duties in departments handling cash.

Condition and criteria: There is a lack of segregation of duties in departments handling cash.

Effect: Lack of segregation of duties could lead to misappropriation or misuse of assets.

Auditor's Recommendation: We recommend that the County establish policies and procedures to adequately segregate cash handling duties.

JASPER COUNTY, SOUTH CAROLINA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
For the Year Ended June 30, 2006

II. Findings Related to the audit of the Financial Statements of Jasper County, South Carolina
- Continued

Finding 2006-3:

Agency Funds' cash

Condition and Criteria: Unadjusted cash balances reported for agency funds did not equal agency funds' reconciled cash balances.

Effect: Cash held for others by agency funds was understated.

Auditor's Recommendation: Management should established policies and procedures to ensure that financial statements reflect agency funds' cash equal to reconciled cash balances.

Finding 2006-4:

Uncollateralized deposits

South Carolina Code of Laws, Section 12-45-220 collateral pledging requirement to secure deposits in excess of federal deposit insurance coverage.

Condition and Criteria: Deposits with financial institutions were not in full compliance with SC Code of Laws Section 12-45-220.

Effect: In the event of the failure of the financial institution, the County may not be able to recover deposits other than that amount cover by FDIC.

Auditor's Recommendation: We recommend that the County fully establish policies and procedures to fully collateralize deposits that are deposited which exceed the FDIC amount.

JASPER COUNTY, SOUTH CAROLINA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
For the Year Ended June 30, 2006

There were no audit findings noted during the year ended June 30, 2005, that are required to be reported for the year ended June 30, 2006.
