December 19, 2019

The Honorable Members of County Council and the Citizens of Jasper County, South Carolina:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Jasper County for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations management of the County has established a comprehensive internal control framework, that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, Jasper County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by The Baird Audit Group, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2019 are free of material misstatement. The independent audit involves examining on a test basis, evidence supporting the amounts and disclosures in the financial statement presentation; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditors concluded based upon the audit that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended June 30, 2019 are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Jasper County's MD&A can be found immediately following the report of the independent auditors.

In addition to the fund-by-fund financial information currently presented in the County's financial statements, we are now including government-wide financial statements. The government-wide financial statements include a statement of net position that provides the total net equity of the County including infrastructure and the statement of activities that shows the cost of providing government services. These statements have been prepared using the full accrual basis of accounting versus the modified accrual method used in the fund financial statements. A reconciliation report is provided as a key to understanding the changes between the two reporting methods. In addition, the new reporting model includes an emphasis on the County's major funds as shown in the governmental fund statements. These new statements discussion and analysis (MD&A). The MD&A provides financial highlights and interprets the financial reports by analyzing trends and by explaining changes, fluctuations and variances in the financial data. In addition, the MD&A is intended to disclose any known significant events or decisions that affect the financial condition of the County.

Profile of the Government

The County was founded in 1912 and is located in the southeastern part of South Carolina, just north of Savannah, Georgia. The County currently occupies a land area of 662 square miles and serves a population of 28,971. The County is empowered to levy a property tax on both real and personal properties located within its boundaries.

The County operates under the council administrator form of government. Policy-making and legislative authority are vested in a governing council consisting of five members. The governing council is responsible, among other things for passing ordinances, adopting the budget, appointing committees, and hiring both the government's administrator and attorney. The government's administrator is responsible for carrying out policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of various departments. The Council members serve four-year staggered terms, with council members elected every two years. Four of the council members are elected from districts and one member is elected at large.

The County provides a full range of services including: police and fire protection, the maintenance of highways, streets and other infrastructure, recreational activities and cultural events, sanitation services, emergency medical services, E-911 and court services.

The annual budget serves as the foundation for the County's financial planning and control. All departments of Jasper County are required to submit requests for appropriations to the administrator on or before the last day in March each year. The County administrator uses these requests as the starting point for developing a proposed budget. The County administrator then presents this proposed budget to the council for review prior to May 15th. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30th, the close of the County's fiscal year. The appropriated budget is prepared by fund and department. Budgetary control (that is the level at which expenditures cannot legally exceed the appropriated amount) is maintained by the administrator at the fund level and may be amended as necessary during the fiscal year. Budget-to-actual comparisons are provided in the report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on pages 58-60 as part of the required supplementary information for governmental funds.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy

The County's budgeted fiscal year 2020 assessable base is \$148,403,197., up 9.1% from the assessable base of \$136,032,966. in fiscal year 2019. The County's current average weekly wage is \$729. The U.S. Census reports that the median household income for Jasper County is \$39,740. The most current U.S. Census population estimate for Jasper County is 28,971.

Jasper County is located west of Beaufort County and the Towns of Bluffton and Hilton Head Island. There are two municipalities within Jasper County—the Town of Ridgeland, which is the County seat and located in the center of the County and the City of Hardeeville, which is located in the southern portion of the County. Interstate 95 (I-95) runs north and south through the middle of the County for a distance of 36 miles with seven interchanges. Two primary corridors, US 278 running east/west and SC 170 running north/south, accommodate much of the tourist traffic in both Jasper and Beaufort Counties. Most of Jasper County's large-scale residential and commercial growth is occurring along these corridors.

A 2006 study completed by Clemson University's Strom Thurmond Institute projected that Jasper County would grow in population to 177,000 residents by 2026. The U.S. Census reports a 14.8% population percentage increase in Jasper County from April 1, 2010 to July 1, 2017. The State of South Carolina experienced an 8.6% population increase statewide during the same period. The County has commissioned a refresh of the 2006 Clemson study to reevaluate current service costs associated with growth.

Jasper County's unemployment rate is currently 3.0%. The State unemployment rate is 3.4%. The County has long suffered from an underemployment problem rather than an unemployment problem. For this reason, Jasper County continues to focus on creating sustainable jobs for its residents and diversifying its tax base as it grows. For many years, the County has supported a regional approach to economic development and job creation. The idea of developing a regional, economic development vision and leveraging regional economic development resources to attract sustainable jobs makes sense for the County.

Jasper County is a member of the Southern Carolina Economic Development Alliance (SCA). The SCA is a regional economic development organization representing Allendale, Bamberg, Barnwell, Colleton, Hampton, Jasper, and Beaufort Counties in the southern part of South Carolina. The SCA was formed as a non-profit economic development organization to aggressively market the Southern Carolina area for industrial locations. The SCA's economic development team consists of site location professionals prepared to quickly assess site location needs, develop sites, and present existing buildings that will meet the client's business needs. Working with the South Carolina Department of Commerce, the SCA prepares incentive packages that are the most competitive offered in the Southeastern United States.

The County has evaluated public and private sites within Jasper County that have been proposed for economic development projects. The County and the SCA are currently focused on creating industrial sites and building speculative buildings. Efforts are underway to publicly and privately finance infrastructure improvements/extensions to and within these properties. RiverPort Business Park, a privately owned, 1,400 acre premier logistics center for warehousing, distribution, and light industrial use, is currently being developed in the City of Hardeeville. A speculative building has been constructed in Point South which is located at Exit 33 on I-95. The County has constructed its fourth speculative building in the County-owned Cypress Ridge Business/Industrial Park just west of Interstate I-95 and the Town of Ridgeland. Jasper County and the Town of Ridgeland have previously worked toward developing a new industrial area along I-95 between Exits 21 & 22 in Ridgeland. Jasper County and the City of Hardeeville have worked together to develop a City-owned industrial park named the Hardeeville Commerce Park located along I-95 at Exit 5. The State of South Carolina has also recently purchased 1,388 acres of the Sherwood Tract located just southeast of I-95 Exit 5 in the City of Hardeeville. The property is currently owned by the SCA and will be marketed for development as an industrial site.

Additionally, the County is currently expanding the County-owned Ridgeland-Claude Dean Airport. The expansion project has included the construction of a new runway and parallel taxiways and will include the future construction of a new terminal. The airport improvements are being made to improve safety and increase business development opportunities in the County. The total project is anticipated to cost \$22 million and is eligible for 90% grant funding from the Federal Aviation Administration (FAA) and 5% grant funding from the SC Aeronautics Commission.

Since 2007, the States of Georgia and South Carolina have been working together, through a bistate effort, to develop and operate a new deep-water shipping terminal in Jasper County on approximately 1,500 acres of land located in the southern portion of Jasper County along the Savannah River. This port has been named the Jasper Ocean Terminal (JOT). Georgia and South Carolina jointly purchased the property and established a bi-state, joint project office (JPO) to oversee the design and development of the new port. The permitting process through the U.S. Army Corps of Engineers began in November 2015. The new port is anticipated to be operational in 2029.

The new port will have a tremendous impact on the local economy and presents the potential for substantial financial benefit to Jasper County. It has been estimated that the new port will produce 450 direct jobs, as many as 98,000 new jobs in the region, one million jobs overall, and \$9 billion in new tax revenue for the States of Georgia and South Carolina.

Long-term Financial Planning

Jasper County spent much time and effort in years past trying to understand and manage growth. One of the primary concerns was to ensure that the future cost of providing County services did not exceed the revenues received from the new growth. To that end, the County has maintained a growth management strategy that encourages a vast majority of all of the residential development to take place within the corporate boundaries of either the City of Hardeeville or the Town of Ridgeland.

In the early 2000's, with most of the planned residential and commercial development, Jasper County and the municipalities of Hardeeville and Ridgeland were involved in jointly negotiating development agreements with voluntary developer fees designed to offset the initial cost of providing additional government services beyond property tax revenue generated from the development. Voluntary fees were developed to assist each entity with providing road, school, library, police, fire, and parks and recreation infrastructure.

Some 30,000 acres of large tract, mixed use development projects were approved for development in Jasper County, the City of Hardeeville, and the Town of Ridgeland at that time. Jasper County, the City of Hardeeville, and the Town of Ridgeland authorized approximately 77,000 new dwelling units and over 4,000 acres of proposed commercial development projects. Based on buildout with those initial fees, the County and the municipalities would have received over \$300 million in voluntary developer fees. The Great Recession greatly chilled that initial development drive; however, development has increased county-wide over the past five years. With this resurgence of development, each jurisdiction has the opportunity to renegotiate and renew agreements being mindful of sustainable densities, the true cost of providing municipal and County services, and the exorbitant cost of providing infrastructure required to support the growth.

Jasper County also supports the development of affordable housing to ensure that affordable housing opportunities are available for Jasper County's workforce as the area grows. A housing needs assessment was completed for Jasper County in 2008. Since that time, new affordable rental, single-family home construction, and rehabilitation projects have been completed. A renewed interest in affordable housing opportunities for Beaufort County's workforce has led to a regional discussion about housing affordability. Jasper County is currently participating in a multijurisdictional Affordable Housing Trust Fund Steering Committee to learn more about housing needs for the area. Jasper County also intends to update the County's housing needs assessment.

As growth continues and the County is required to provide services to a larger population, the County must maintain discipline in spending and not depend upon speculative revenue when budgeting. The County must also continue efforts to diversify the tax base and maintain strong reserves. These practices will ensure that the County is prepared to react to changes in the economy and respond to disasters while maintaining operations. The County ended Fiscal Year 2019 with a fund balance increase of \$7,641,943, a combined ending fund balance of \$29,684,171, and an unassigned fund balance for the general fund of \$10,750,767, or 38% of total fund expenditures.

Significant Financial Policies

The County adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which required the restatement of net position at June 30, 2014, and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which required the restatement of net position at June 30, 2017 and the reporting of its net pension liability and other postemployment benefits liability each year going forward.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement in Financial Reporting to Jasper County, South Carolina for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. This was the 21st consecutive year that Jasper County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to certificate of achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the comprehensive annual financial report was made possible by the cooperation of the department heads and staff of the County. Each of these individuals has our sincere appreciation for the contributions made in the preparation of this report.

Sincerely,

Andrew P. Fulghum County Administrator

INDEPENDENT AUDITORS' REPORT

To the County Council Jasper County, South Carolina Ridgeland, South Carolina

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jasper County, South Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Jasper County, South Carolina, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 12-19 and 58-60, Schedule of the Proportionate Share of the Net Pension Liability, Schedule of Contributions, and Schedule of Changes in Total OPEB Liability and Related Ratios on pages 61-63, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Jasper County, South Carolina's basic financial statements. The introductory section, combining nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal award is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirement, Cost Principles,* and *Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2019, on our consideration of Jasper County, South Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jasper County, South Carolina's internal control over financial reporting and compliance.

Jasper County, South Carolina Management's Discussion and Analysis

As management of Jasper County (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 to 6 of this report.

Financial Highlights

- The assets and deferred outflows of the County exceed its liabilities and deferred inflows at the close of the most recent fiscal year by \$23,556,100 (net position).
- The County's total net position increased by a net amount of \$10,394,862 which represented an increase in operations.
- As of the close of the current fiscal year the County's governmental funds reported combined ending fund balance of \$29,684,171, an increase of \$7,641,943.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$10,750,767 or 38% of total fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Jasper County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets, liabilities, and deferred outflows/inflows of resources with the difference reported as net position. Over time, increases and decreases in the net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the County include general government, finance, public works, sanitation, emergency services, codes and law enforcement, courts, economic development, health, education and welfare, and parks, recreation and tourism. The County currently has no business type activities.

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into these two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds for which similar information is presented for the governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund, economic development fund and the capital projects fund that are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 22-25 of this report,

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. All of the fiduciary funds are agency funds – assets equal liabilities. The basic fiduciary fund financial statement can be found on page 26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-57 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budget on pages 58-60 and historical pension and OPEB information on pages 61-63.

The combining individual fund statements and schedules are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 64-71 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Jasper County, assets and deferred outflows exceeded liabilities and deferred inflows by \$23,556,100 at the close of the most recent fiscal year. The following table reflects the condensed governmental-wide statement of net position.

Unrestricted		(20,391,347)	(19,576,094)
Total Net Position	\$	23,556,100	\$ 13,161,238

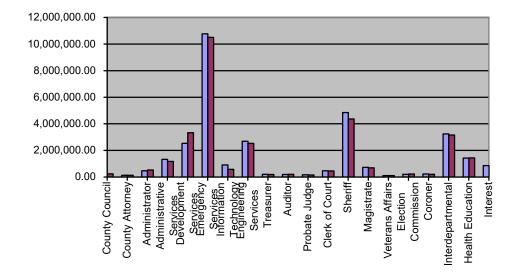

By far the largest portion of the County's net position \$30,840,723 reflects its investment in capital assets (e.g. land, construction in progress, building and improvements, machinery and equipment, vehicles, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of net position of \$13,106,724 represents the balance of net position that has restricted resources and is not available to fund other commitments. The restricted net position relates to capital projects underway, debt service accounts, tourist related projects, and other revenue sources that are earmarked for specific County functions.

Governmental activities. The County's total net position changed by \$10,394,862 in 2019 compared to a decrease of \$1,762,928 in 2018 because of the implementation of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. Key elements of this increase are as shown in the following table.

Total revenues were up \$3,069,838 and expenses were up \$573,449, most of which related to the funds generated by the local option special purpose sales tax of \$5,894,368 for transportation purposes.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Jasper County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$29,684,171, an increase of \$7,641,943 in comparison with an increase of \$3,554,402 in the prior year.

The fund balance of the County's General Fund increased by \$648,460 during the current fiscal year. Key factors of this increase are as follows:

- Overall County revenues were over budget by \$965,079. This positive variance can be explained as follows:
 - Tax revenues were over budget \$2,326,131. This is attributable to an improvement in the economy resulting in an increase in local option sales taxes collected from growth and an overall increase in the County's assessed valuation.
 - Fines, fees and licenses were over budget \$947,053. This is attributable to higher than anticipated revenues in EMS fees of \$222,449, road maintenance fees of \$88,595, development fees of \$233,499, magistrate fines of \$188,131, and register of deeds of \$173,471.
 - Intergovernmental revenues were over budget \$164,314 because of reimbursements from other governments for costs associated with courts administration and law enforcement.
 - The negative variance in miscellaneous income represents the amount budgeted for a cash carryforward of \$2,908,000 offset with other miscellaneous income positive variance of approximately \$436,000.
- Overall expenditures were under budget by \$181,381. Key elements of this positive variance can be explained as follows:
 - The County was over budget in salaries and related benefits by approximately \$670,000 mainly related to overtime and medical insurance overages.
 - Detention Center food and inmate housing was over budget by approximately \$71,000.
 - Grant matching funds were approximately \$410,000 under budget because the emergency shelter construction was delayed and the purchase of vehicle for fire and rescue was under budget approximately \$265,000 because of delay in receipt of an ambulance,
 - The County had a negative budget variance in vehicle maintenance of approximately \$133,000 while building maintenance was under budget approximately \$193,000.
 - Contract services had an overall positive variance of approximately \$109,000.
 - Other positive variances were approximately \$45,000 in the Jasper County Airport budget and approximately \$41,000 in payments to the Legislative Delegation.

The debt service fund has a total fund balance of \$2,196,091 which is restricted for future debt payments. The increase of \$441,306 relates to taxes collected in excess of bond payments.

The economic development fund has a total fund balance of \$3,174,069 which is assigned for future economic development projects. The increase of \$1,070,689 relates to the loan received for the construction of a spec building.

The capital projects fund has a total fund balance of \$8,742,647 because the County received advances on amounts to be expended on various projects. The increase of \$5,712,674 relates to the capital projects special purpose sales tax.

General Fund Budgetary Highlights

During the budget year, the County Administrator can exercise his authority to transfer budgets up to \$5,000 between departments as long as the total budget of the County remains intact. County Council has the authority to amend the budget as required. There were positive variances in both revenues and expenditures. There was a \$1,208,000 supplemental budgetary appropriation for emergency services fire and rescue.

Capital Assets and Debt Administration

Capital Assets. The County's investment in capital assets for its governmental type activities as of June 30, 2019 amounts to \$49,144,516 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, vehicles, and infrastructure.

Major capital asset events during the current year include the following:

Building improvements: Parks and Fire Stations	\$ 625,010
Construction in progress: Ridgeland Airport and Fire Rescue	3,984,807
Land and improvements: Airport land and Stiney Road land	405,585
Infrastructure: Grays & Robertville Community Centers, Cypress Ridge	31,846
Radios, Mosquito Sprayer, Server, Scanner, Compactor, Lawnmower	359,838
Tahoes, Chargers, Ambulances, Ram and Fire Trucks	452,615
Total Capital Outlay	\$ 5,859,701

Additional information on the County's capital assets can be found in note 4 on page 36 of this report.

Long-term Obligations. At the end of the current fiscal year, the County had total long-term obligations outstanding of \$58,861,698. The County's total long-term obligations increased by \$411,191 during the current fiscal year. County debt increased by \$1,359,510 for the construction of Cypress Ridge Spec Building 4. All other long-term debt was paid as scheduled. Other post employment benefits decreased by \$648,079 with the latest actuarial evaluation, while the net pension liability increased by \$708,203.

	 Governmen	tal Act	ivities

Other post employment benefits	15,962,300		16,610,379
Total	\$ 58,861,698	\$	58,450,507

The County's general obligation bonds are rated AA- by Standard & Poor's. Revenue bonds of the County are rated A+ by Standard & Poor's. No changes to the County's credit ratings occurred this year.

State statutes limit the amount of general obligation debt a governmental entity may issue, without a referendum, to 8% of its total assessed valuation. The current debt limitation for the County is \$12,053,794 with \$5,602,431 of general obligation debt issued that offsets this limit for a legal debt margin of \$6,451,363.

Additional information on the County's long-term debt can be found in note 7 on page 38 of this report.

Economic Factors and Next Year's Budget

- Unemployment as of June 2019 stands at 3.3% versus 3.1% a year ago. In comparison, the State's unemployment rate is 3.5% and the national rate is 3.7% as of June 2019.
- Inflationary trends in the region compare favorably to national indexes.
- The assessed valuation for the 2018 tax year increased from \$140,132,048 to \$150,672,423.

All of these factors were considered in preparing the County's budget for the 2020 fiscal year.

During the current fiscal year, the fund balance in the general fund increased to \$14,253,013. The County set millage for the 2020 budget year at 142 and has budgeted 12 mills for the debt service fund to retire the bonds, which is the same millage as the previous year. Budgeted expenditures for 2020 are projected to increase 14.3% to \$31,204,375 from \$27,295,679 in 2019.

Requests for Information

This financial report is designed to provide a general overview of Jasper County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Jasper County, P.O. Box 1149, Ridgeland, South Carolina, 29936.

Total Liabilities, Deferred Inflows of Resources, and Fund Balances

JASPER COUNTY, SOUTH CAROLINA RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2019

Total net position reported for governmental activities in the statement of net position is different because:

Total fund balances for governmental funds	\$ 29,684,171
Capital assets used in governmental activities are not financial resources	
and therefore are not reported in the funds. Those assets consist of:	
Land and Improvements \$ 5,511,505	
Construction in Progress 13,596,672	
Buildings and Improvements, net of \$8,042,312 accumulated depreciation 19,863,678	
Machinery and Equipment, net of \$4,260,062 accumulated depreciation 2,415,368	
Vehicles, net of \$4,462,005 accumulated depreciation 2,157,903	
Infrastructure, net of \$2,276,282 accumulated depreciation 5,599,390	
Total Capital Assets	49,144,516
Other long-term assets are not available to pay for current period expenditures	
and, therefore, are reported as unavailable revenue in the funds.	1,324,201
Receivables under a leasing arrangement that will be received over a period	
of years that are not reported in the funds.	401,154
Deferred outflows and inflows of resources represents amounts applicable to	
future periods and, therefore are not reported in the funds.	
Deferred outflows of resources:	
Related to pensions 4,081,325	
Related to OPEB 357,079	
Related to advance refunding 683,015	
Deferred inflows of resources:	
Related to pensions (362,458)	
Related to OPEB (2,763,825)	
Total deferred outflows and inflows of resources	1,995,136
Long-term liabilities applicable to the County's governmental activities are not	
due and payable in the current period and accordingly are not reported as	
fund liabilities. Interest on long-term debt is not accrued in governmental	
funds, but rather is recognized as an expenditure when due. All liabilities,	
both current and long-term, are reported in the statement of net position.	
Balances at June 30, 2019 are:	
Accrued Interest Payable (131,380)	
Net Pension Liability (21,290,489)	
Post Retirement Benefits Payable (15,962,300)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

Jasper County, South Carolina (the "County") is a political subdivision of the State of South Carolina, operating under the Council-Administrator form of government to provide services authorized by its charter. It is governed by an elected Board (the "Council"), which is governed by state statutes and regulations. In addition to the members of the Council, there are two elected Constitutional Officers: Treasurer and Auditor.

The accompanying financial statements present the combined financial positions and combined results of operations of the various fund types controlled by the Council and its Constitutional Officers.

The Council funds all of the operating budgets of the County's Constitutional Officers. The County Council acts as the governing body of the County with power to pass ordinances and adopt resolutions. The accompanying financial statements present the government and its component units, entities for which the government is considered financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. The County is not reporting any component units as described above.

Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Jasper County reports only governmental activities, as there are no business-type activities or component units.

Although interfund services provided and used are not eliminated in the process of consolidation, as a general rule the effect of interfund activity has been eliminated from the government-wide financial statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *economic development fund* accounts for the external contributions and external financing accumulated and payments made for economic development of the County.

The *capital projects fund* accounts for the intergovernmental revenues and proceeds of debt accumulated and payments made for specific major capital projects.

The *debt service fund* accounts for the taxes accumulated and payments made for debt payments.

Additionally, the government reports the following fund types:

The *agency fund* is used to account for resources held by the County in a trustee capacity for the Jasper County schools and for amounts held by departments for others.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the presentation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. The County has no enterprise funds.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in the governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within the first 60 days after the end of the current fiscal period, except for grant reimbursements for which the availability period is 120 days. Expenditures generally are recorded when a liability is incurred as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of long-term debt and for acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 120 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 120 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. An annual budget for the special revenue fund is not adopted as sufficient budgetary control is achieved through restrictions included in the various grant agreements. An annual operating budget for the capital projects fund is not adopted as its revenues and expenditures are adopted on a project basis. All annual appropriations lapse at fiscal year-end.

The appropriated budget is prepared by fund, function, and department. The government's departmental heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the County Administrator. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The Council may make several supplemental budgetary appropriations throughout the year. There was a supplemental budgetary appropriation of \$1,208,000 made in the general fund during the year for emergency services.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executor) contracts for goods and services (i.e., purchase order, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at the end of the year, valid outstanding encumbrances (those for which performance under executor contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The County is authorized by State statute to invest in the following:

Obligations of the United States, its agencies and instrumentalities;

Obligations of the State of South Carolina or any of its political subdivisions;

Savings and Loan Associations to the extent that the same are insured by an agency of the federal government;

Certificates of deposit and repurchase agreements provided the collateral is of the types described above and has a market value in excess of the certificate of deposit or repurchase agreement plus accrued interest, and is held by a third party as escrow agent or custodian;

Repurchase agreements when collateralized by securities of the type described above and held by a third party as escrow agent or custodian, of a market value not less than the amount of the repurchase agreement so collateralized, including interest;

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond debt issue of the County if the particular portfolio of the investment company or investment trust in which the investment is made (1) is limited to obligations described above and (2) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, values its assets by the amortized cost method.

A single central depository holds most operating cash. Each fund owns a pro-rata interest in the cash held by the depository. Interest income is allocated to the creditor funds based on average cash balances. Investments are stated at fair value.

The County has a number of financial instruments, none of which are held for trading purposes. Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Debt securities are reported at cost or amortized costs.

Inventories

Inventories of the general fund consist of supplies held for consumption and are immaterial to the financial statements and accordingly are not recorded.

Capital Assets

Capital assets, which include property and equipment and infrastructure assets (e.g. roads, lighting, and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the government as property and equipment with an initial, individual cost of more than \$5,000 and infrastructure assets with an initial, individual cost of more than \$100,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or acquisition value if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Infrastructure	20 to 50
Vehicles and Equipment	5 to 20

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The statement of net position reports deferred outflows of resources related to its net pension liability, other postemployments benefit liability, and advance refundings of debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has unavailable revenue resulting from property taxes under modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item unavailable revenue is reported in the governmental funds balance sheet. The statement of net position reports deferred inflows related to its net pension liability and other postemployment benefit liability. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing council has by resolution authorized the administrator to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Property Taxes

The County Ordinance provides for the taxation of all real and personal property located within the County limits on the first day of January. Motor vehicle taxes are billed and collected by the County Treasurer on a monthly basis. Other personal and real property taxes are levied by the County in October of each year and become due and payable immediately upon receipt by the taxpayer. Real property taxes are delinquent after January 15th with penalties assessed of 3% if paid after January 15th, 10% if paid after January 31st, and 15% if paid after March 15th. Assessed property is subject to lien one year from the levy date if taxes remain unpaid. The property tax rate approved by ordinance for tax year 2018 is 142 mills with an additional 12 mills for the County debt service fund.

Compensated Absences

<u>Vacation</u> - The County's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee's resignation or retirement. The liability for compensated absences includes salary-related benefits, where applicable.

<u>Sick Leave</u> - Accumulated sick leave lapses when employees leave the employment of the County and, upon separation from service, no monetary obligation exists.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 DEPOSITS AND INVESTMENTS

As of June 30, 2019, the County had the following cash and investments that are included in governmental funds of \$23,109,313 and the agency fund cash of \$32,070,330.

		Book	Bank
	Maturity	Balance	Balance
<u>Investment</u>

Total Deposits and Investments		\$ 55,179,643	\$ 55,368,052

*Account is swept daily; however, \$120,000 is ordinarily left in account and excess is placed in government securities under a repurchase agreement. Balance of repurchase agreement at June 30, 2019 is \$220,980.

<u>Credit Risk</u> – The County does not have an investment policy but follows state guidelines for investments. The investments of the County include a repurchase agreement invested in government treasury obligations and construction funds invested in short-term government securities, which mature daily.

<u>Interest Rate Risk</u> – The County does not have an investment policy. Maturities on repurchase agreements are from 1 to 5 days. Maturities on certificate of deposits are 12 months or less. U.S. Government securities are highly liquid treasury notes.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. Currently, the County's investments consist of certificates of deposit and deposits with the South Carolina Local Government Investment Pool (LGIP). The LGIP is considered to be a 2a7-like pool that operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The pool is managed by the Treasurer's Office of the State of South Carolina. The pool is not registered with the SEC as an investment company. The fair value of the balance in the LGIP represents the same value as the pool shares.

As of June 30, 2019, the bank balance was \$55,368,052. At year end, \$49,755,085 of the County's deposits were covered by federal depository insurance and or by collateral held in the pledging financial institution. Therefore, \$5,612,967 of the County's deposits were exposed to custodial credit risk as of June 30, 2019.

NOTE 6 INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2019 is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Capital Projects	\$2,835,566
		\$2.835.566

The \$2,835,566 due to the general fund from the capital project fund represents shortfalls of cash in the capital project fund that occurred while waiting for grant reimbursements.

Interfund Transfers

Interfund balances for the year ended June 30, 2019 consisted of the following:

<u>Refundings</u>

In March 2017, the County issued \$8,290,000 in Revenue Bond Series 2017 at interest rates between 2.00% and 4.00%. The County issued the bonds to advance refund \$7,240,000 of the outstanding Revenue Bond Series 2011A with interest rates between 4.00% to 5.25%. The net proceeds of \$8,051,892 (after payment of approximately \$394,413 in issue costs) along with other cash was used to purchase SLG securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the 2011A series Revenue Bonds. The County completed the refunding to reduce its total debt service payments over a period of 15 years by \$1,742,961 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$397,362.

Conduit Debt

Pursuant to Section 4-1-175 and 4-29-68 of the South Carolina Code of Laws, the County entered into an agreement with a developer whereby the County issued a \$7,000,000 bond in 2001 and a \$6,000,000 bond in 2003 to further economic development within the County. The County Treasurer pays the developer 40% of the fee-in-lieu tax received from the businesses in the park. The County has no financial liability beyond this amount. At June 30, 2019, \$5,500,000 and \$4,500,000 were outstanding.

Defeasance Debt

During the year ended June 30, 2017, the County defeased a portion of its Series 2011A Revenue Bond by placing the proceeds of the new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability of the defeased bond are not included in the County's financial statements. On June 30, 2017, the amount of debt considered defeased is approximately \$7,240,000.

Debt Service Fund

A Debt Service Fund has been established to collect millage for the payments on the bonds. At June 30, 2019 there was \$174,713 in debt service reserve accounts. Also, \$2,224,279 is on hand toward the interest and principal on the bonds. The current budget for 2019-2020 includes 12 mills for the payment of debt service.

Commitments Under Noncapitalized Leases

The County has operating leases on two garbage trucks. Lease payments are \$2,550 per month plus \$0.074 per mile on each truck.

The County has entered into five new leases in 2018 for public works equipment for \$460,000. Annual payments of \$131,000 over 5 years.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

Compensated Absences

Unused vacation leave liabilities are reported in the applicable governmental type activities columns in the government-wide financial statements. The County has no financial liability for its unused sick leave. Compensated absences are paid from the general fund. The accrued compensated absences at June 30, 2019 are \$861,437 and include 17% for employee benefits and are included in long-term liabilities.

Other Post Employment Benefits

Plan Description – County employees who participate in the County's health insurance plan and who retire from County service in accordance with the South Carolina Retirement System may have their health insurance continued. The plan is a single-employer plan that covers the current and former employees, including beneficiaries, of only one employer. No assets are accumulated in a trust that meets the criteria in paragraph four of GASB Statement No. 75.

Service Retirees and employees enrolled in the health plan on or before July 20, 2008, who (1) have participated in the County's health insurance plan for ten (10) or more consecutive years; and (2) have met the retirement age; and (3) at the time of retirement are active County employees, will have their health insurance premiums paid by the County. Employees enrolled in the health plan on or after July 21, 2008, and enrolled in the South Carolina Retirement System, at the time of retirement must be employed for twenty-eight (28) years and meet the second and third criteria to qualify for paid health insurance premiums after retirement. Employees enrolled in the health plan on or after July 21, 2008, and enrolled in the Police Officers Retirement System at the time of retirement must be employed for twenty-five (25) years and meet the second and third criteria to qualify for paid health insurance premiums after retirement.

Funding Policy – The contribution requirements of plan members and the County are established and may be amended by the County Council. The required contribution is based on projected pay-asyou-go financing requirements, with an additional amount to prefund benefits as determined annually by the County Council. For fiscal year ended June 30, 2018, the County contributed \$285,632 to the plan, including \$285,632 for current premiums while no prefunding contributions were made. The premiums are paid from the County general fund.

Annual OPEB Cost and Net OPEB Obligation - The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 75. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table provides a summary of the number of participants in the plan as of June 30, 2018:

Membership				
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	53			
Inactive Plan Memebers Entitled to But Not Yet Receiving Benefits	0

Balance at June 30, 2019	\$ 15,962,300

Actuarial Methods and Assumptions – The demographic assumptions are based on the assumptions that were developed for the defined benefit plans in which the County participates (SCRS and PORS). The assumptions are based on the experience study covering the five-year period ending June 30, 2015 as conducted for the South Carolina Retirement Systems.

Discount Rate – For plans that do not have formal assets, the discount rate should equal the taxexempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. For the purpose of this valuation, the municipal bond rate is 3.62% (based on the daily rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index"). The discount rate was 3.56% as of the prior measurement date.

Participation Rates – It was assumed that 95% of future retirees who are eligible for the County's premium subsidy and 20% of retirees who are not eligible for the subsidy would choose to receive health care benefits through the County.

Mortality Rates – For healthy retirees, the 2016 Public Retirees of South Carolina Mortality Table for Males and the 2016 Public Retirees of South Carolina Mortality Table for Females are used with fully generational mortality projections based on Scale AA from the year 2016. The following Multipliers are applied to the base tables: 100% for male SCRS members, 111% for female SCRS members, 125% for male PORS members, and 111% for female PORS members.

Health Care Trend Rates – Initial trend of 6.40% declining to an ultimate trend rate of 4.15% after 15 years.

Demographic Assumptions – Based on the experience study covering the five-year period ending June 30, 2015 as conducted for the South Carolina Retirement Systems (SCRS).

Pension Plan

Description of the Entity

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012 and governed by an eleven member Board, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. The Retirement Funding and Administration Act of 2017, which became effective July 1, 2017, increased the employer and employee contribution rates, established a ceiling on the SCRS and PORS employee contribution rates, lowered the assumed rate of return, required a scheduled reduction of the funding periods, and addressed various governance issues including the assignment of the PEBA Board as custodian of the retirement trust funds and assignment of the RSIC and PEBA as cotrustees of the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at <u>www.peba.sc.gov</u>, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions

- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.
- The South Carolina Police Officers Retirement System (PORS), a cost-sharing multipleemployer defined benefit pension plan, was established July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

In addition to the plans described above, PEBA also administers three single-employer defined benefit pension plans, which are not covered in this report. They are the Retirement System for Members of the General Assembly of the State of South Carolina (GARS), the Retirement System for Judges and Solicitors of South Carolina (JSRS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG).

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

- SCRS Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date system with an effective date of membership prior to July 1, 2012, is a Class Two member.
- PORS To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of benefit terms for each system is presented below.

SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Contributions are prescribed in Title 9 of the South Carolina Code of Laws. If the scheduled employee and employer contributions provided in statute, or the rates last adopted by the board, are insufficient to maintain the amortization period set in statute, the board shall increase employer contribution rates as necessary.

After June 30, 2027, if the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than eighty-five percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than eighty-five percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than eighty-five percent, then following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than eighty-five percent.

The Retirement System Funding and Administration Act establishes a ceiling on employee contribution rates at 9 percent and 9.75 percent for SCRS and PORS respectively. The employer contribution rates will continue to increase annually by 1 percent through July 1, 2022. The legislation's ultimate scheduled employer rate is 18.56 percent for SCRS and 21.24 percent for PORS. The amortization period is scheduled to be reduced one year for each of the next 10 years to a twenty year amortization period.

Actuarial Assumptions and Methods

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2015.

The June 30, 2018, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2017. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2018, using generally accepted actuarial principles.

NOTE 7 LONG-TERM OBLIGATIONS - CONTINUED

The following provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2018.

Actuarial cost method	<u>SCRS</u> Entry age normal	PORS Entry age normal
Investment rate of return ¹	7.25%	7.25%
Projected salary increases	3.0% to 12.5% (varies by service) 1	3.5% to 9.5% (varies by service) 1
Benefit adjustments	Lesser of 1% or \$500 annually	Lesser of 1% or \$500 annually

¹ includes inflation at 2.25%

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2018, TPL are as follows.

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

Net Pension Liability

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2018, for SCRS and PORS are presented below.

System	То	otal Pension Liability	Pla	an Fiduciary Net Position	mployers' Net ension Liability (Asset)	Plan Fiduciary Net Position as a % of the Total Pension Liability
SCRS	\$	19,267,884	\$	10,424,911	\$ 8,842,973	54.1%
PORS		32,525,050		20,077,534	12,447,516	61.7%
	\$	51,792,934	\$	30,502,445	\$ 21,290,489	

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 30 year capital market assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table on the following page. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the TPL includes 5.00 percent real rate of return and a 2.25 percent inflation component.

	Target Asset	Expected Arithmetic Real	Long-Term Expected Portfolio Real Rate

Discount Rate

The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

Sensitivity Analysis

The following table presents the collective NPL of the participating employers calculated using the discount rate of 7.25 percent, as well as what the employers' NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

Additional items included in Total Employer Pension Expense in the Schedules of Pension Amounts by Employer are the current period amortized portions of deferred outflows and/or inflows of resources related to changes in employers' proportionate share of the collective NPL and differences between actual employer contributions and proportionate share of total plan employer contributions. These two deferrals are specific to cost-sharing multiple-employer defined benefit pension plans as discussed in paragraphs 54 and 55 of GASB 68.

Deferred Outflows of Resources and Deferred Inflows of Resources

The schedules beginning on the following page reflect the amortization of collective deferred outflows/(inflows) of resources related to pensions outstanding as of June 30, 2018.

<u>SCRS</u>	0	Deferred utflows of Resources	Deferred Inflows of Resources

The amounts reported of \$624,623 and \$1,120,315 that was reported as deferred outflows of resources related to the County's contributions subsequent to the measurement date to the SCRS and PORS, respectively, will be recognized as a reduction of the net pension liabilities in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources (deferred pension charges) and deferred inflows of resources (deferred pension credits) related to the SCRS and PORS will increase (decrease) pension expense as follows:

Employer and Nonemployer Contributions

Employers' proportionate shares were calculated on the basis of employer contributions remitted to the plan by employers and nonemployer contributions appropriated in the State's budget. In an effort to help offset a portion of the burden of the increased contribution requirement for employers, the General Assembly funded 1 percent of the SCRS and PORS contribution increases for fiscal year 2018. The State's budget appropriated these funds directly to PEBA for the South Carolina Retirement System Trust Fund and the Police Officers Retirement System Trust Fund. The amount of nonemployer funds appropriated for fiscal year 2018 totaled \$105 million and \$13.1 million for SCRS and PORS respectively.

Employer contributions recognized by the Systems that are not representative of future contribution effort are excluded in the determination of employers' proportionate shares. Examples of employer contributions not representative of future contribution effort are contributions toward the purchase of employee service purchases and employer contributions paid by employees.

The following table provides a reconciliation of Employer and Nonemployer contributions in the plans' Statement of Changes in Fiduciary Net Position (per the Systems' separately issued financial statements) to the Employer and Nonemployer contributions used in the determination of employers' proportionate shares of collective pension amounts reported in the Schedules of Employer and Nonemployer Allocations.

	SCRS	PORS
Employer Contributions Reported in Statement of Changes in Net Position for the fiscal year ended June 30, 2018	\$ 513,246	\$ 930,390

Additional Financial and Actuarial Information

Information contained in these Notes to the Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer (Schedules) was compiled from the Systems' audited financial statements for the fiscal year ended June 30, 2018, and the accounting and financial reporting actuarial valuation as of June 30, 2018. Additional financial information supporting the preparation of the Schedules (including the unmodified audit opinion on the financial statements and required supplementary information) is available in the Systems' CAFR.

NOTE 7 LONG-TERM OBLIGATIONS – CONTINUED

Payables to the Pension Plan

At June 30, 2019, the County reported payables of \$236,022 that represents the amount due for the month of June.

NOTE 8 EMPLOYEE BENEFIT PLANS

401(K) Plan

Jasper County currently offers all full-time employees the option of participating in a 401(K) plan. The South Carolina Retirement System administers the plan. Under the terms of the plan employees may contribute a minimum of two percent and a maximum of twenty percent of adjusted gross income subject to the limits of Section 401(K) of the Internal Revenue Code. It is the opinion of the County's legal counsel that the government has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. Therefore, the assets and liabilities of the 401(K) plan are not reflected in the County's financial statements.

NOTE 9 LANDFILL

The County-owned landfill has not accepted solid waste for many years and has no liability for post closure costs. All amounts included in these statements for landfill cost are related to costs of disposing of solid waste at an independent landfill.

NOTE 10 SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The County has several lawsuits against it. Most of this litigation is covered by insurance or settled through subsequent agreements.

The County is a member of the South Carolina Counties Workers' Compensation Trust which is a group that provides workers' compensation self-insurance. Under the terms of the agreement, the members of the trust must pay all of the costs pertaining to claims and administration. Amounts are reflected in worker's compensation expenditures.

NOTE 11 RISK MANAGEMENT

The County is exposed to various types of risk of loss and maintains elements of both self-insurance and purchased insurance policies divided into coverage of worker's compensation, property and casualty, and employee health insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. The insurer promises to pay to or on behalf of the insured for covered economic losses in accordance with insurance policy and benefit program limits. There have not been any reductions in insurance coverage from the prior year. The amounts of settlements have not exceeded coverage in each of the past three fiscal years. The County has recorded insurance premium expenditures in the applicable functional expenditure categories of the General Fund. These expenditures do not include estimated claim losses and estimable premium adjustments. In management's opinion, supplemental premium assessments, if any, would not be significant enough to have a material adverse effect on the financial position of the County. The State of South Carolina assumes substantially all risks for the following:

NOTE 11 RISK MANAGEMENT – CONTINUED

Property and casualty insurance on buildings, equipment, and vehicles owned by the County as well as tort liability on County employees (South Carolina Insurance Reserve Fund).

The County participates in the South Carolina Municipal Association Workers' Compensation Pool, a public entity risk pool for its Workers Compensation coverage. Pool members are subject to a supplemental assessment in the event of deficiencies.

The computation of investment in capital assets, net of related debt is as follows:

Capital Assets	\$49,144,516
Debt on Capital Assets:	
Revenue Bonds	(12,940,000)
General Obligation Bonds	(5,602,431)
Capital Leases	(337,088)

Discount on Bonds Payable	110,926
Net Investment in Capital Assets	\$30,840,723

The long-term debt includes \$1,760,664 in notes payable that offsets the lease receivable from LCOG and the property held for resale. These loans are not included in debt on capital assets.

NOTE 14 TAX ABATEMENTS

The County negotiates property tax abatement agreements on an individual basis. The County has tax abatement agreements with the following as of June 30, 2019:

Purpose	Percentage of Taxes Abated During the Fiscal Year	Ta: C	Amount of xes Abated During the iscal Year
Provide health care to citizens in the area	31%	\$	265,703
Provide manufacturing facilities for employment opportunities	30%	\$	12,885
Provide infrastructure for solar power	40%	\$	116,431
Provide infrastructure for utility power expansion	70%	\$	6,074,098

Industries that invest at least \$2.5 million in South Carolina may negotiate for a fee-in-lieu of property taxes. This can result in a savings of about 40% on property taxes otherwise due for a project. Certain large investments may be able to further reduce their liability by negotiating the assessment ratio from 10.5% down to 6%. For large investments, the assessment ratio can be reduced down to 4%. The County and the industry may agree to either set the millage rate for the entire agreement period or have the millage change every five years in step with the average millage rate for the area where the project is located. Any personal property subject to the fee in lieu of property taxes depreciates in accordance with South Carolina law, while the real property is either set at cost for the life of the agreement or can be appraised every five years.

A fee in lieu of property taxes is granted by, and at the discretion of, the County where the project is located. The industry must make the \$2.5 million investment over a five-year period to qualify. Large investment projects have eight years to meet their increased investment requirements. During this period, all property that is placed in service pursuant to the agreement is subject to a fee instead of ad valorem property taxes. A County may give the industry an additional five years to complete the project and place new property in service subject to the fee. A single piece of property can be subject to the fee for up to 40 years with the County's consent. The total project can be subject to the fee for up to 50 years with the County's consent.

NOTE 15 SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 11, 2019, the date the financial statements were issued. Management signed a commitment to purchase three Pierce Freightliner Pumper Firetrucks through a lease purchase agreement for \$998,118. The firetrucks are expected to be delivered near the end of the year 2019. The terms of the lease call for seven payments of \$169,692 beginning in October 2019.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION:

The basis of budgeting is the same as generally accepted accounting principles. The County adopts annual budgets for the General Fund using the modified accrual basis. An annual budget for the Special Revenue Fund is not adopted as sufficient budgetary control is achieved through restrictions included in the various grant agreements. An annual operating budget for the Capital Projects Fund is not adopted as its revenues and expenditures are adopted on a project basis. Appropriations lapse at the end of the budget year.

JASPER COUNTY, SOUTH CAROLINA NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2019

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Jasper County, South Carolina (the County) under programs of the federal government for the year ended June 30, 2019. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The County has elected not to use the 10% de Minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 NON-CASH AWARDS

The County did not receive any non-cash federal awards during the year ended June 30, 2019.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Council Jasper County, South Carolina Ridgeland, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jasper County, South Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Jasper County, South Carolina's basic financial statements, and have issued our report thereon dated December 11, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jasper County, South Carolina's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jasper County, South Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of Jasper County, South Carolina's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jasper County, South Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Jasper County, South Carolina Page 2

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Council Jasper County, South Carolina Ridgeland, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Jasper County, South Carolina's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Jasper County, South Carolina's major federal programs for the year ended June 30, 2019. Jasper County, South Carolina's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Jasper County, South Carolina's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jasper County, South Carolina's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Jasper County, South Carolina's compliance.

Opinion on Each Major Federal Program

In our opinion, Jasper County, South Carolina complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of Jasper County, South Carolina is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Jasper County, South Carolina's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jasper County, South Carolina's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance with a type of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or a combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
